Weekly Internship Report

Second week report from (27 June to 03 July 2021)

Name: Rohit Gajanan Mundhe

PRN: 0120190111

Department: Computer Engineering

Company Name: Codekul

Work Assigned or Initiated: 1)To create signup and login page using spring boot,thymleaf,css and html

2)To perform web operations

Things learned (Technical and Soft Skills):

- Spring Boot is used to make stand alone projects. In this week, we created some web pages using spring boot.
- In this week, we created signup and login page using STS(Spring Boot Tool)
- We connected the data of this pages using mysql and aclso encrypt it using Bcrypt Function.
- We did controller, service, repository and Dao functionalities.
- We also Chek our program using get,post method through postman app(Chrome based app)
- We created dynamic web pages in templates of our project by using css,javascript.
- Our front end and backend was properly connected using arios .It worked properly.
